M.Sc. student in Medialogy specializing in HCI and Immersive Technologies. Creating impactful user experiences through data-driven design and full project lifecycle development.

Skills

Technical: Unity, C#, Python, JavaScript, Git, Figma, LaTeX
Methodologies: User Research & Testing, Prototyping, Statistical Analysis, Experimental Design
Certifications: IBM AI Fundamentals, Hugging Face Deep RL

Education

Aalborg University Copenhagen Copenhagen, DK
Master of Science in Medialogy Sep 2025 – Present

Specialization: Human-Computer Interaction, Applied Research

Core: Problem-Based Learning (PBL), UX Research, Machine Learning, Statistical Analysis

Bachelor of Science in Medialogy Graduated Jun 2025

Relevant Coursework: Interactive Systems, Web Programming, User-Centered Design

H.C. Ørsted Gymnasiet, Lyngby Graduated Jun 2021

Technical High School – Mathematics A, Programming B

Technical Projects

VR Conflict Management Training for Educators Jan–Jun 2024
AAU Copenhagen & University College Copenhagen

- Designed and developed immersive VR simulation using **Unity (C#)** with branching narrative for conflict resolution training
- Conducted **mixed-methods user study (n=15)** with pre-service teachers; achieved 4.2/5 average immersion score and gathered qualitative insights for iterative design
- Presented validated findings to academic and partner stakeholders

Bachelor Thesis: Adaptive Language Learning Game Sep–Dec 2023
Aalborg University Copenhagen

- Engineered serious game in **Unity** with **adaptive difficulty system** for Portuguese vocabulary acquisition, implementing an **adaptive difficulty system** that adjusted puzzles based on player performance.
- Validated through **quasi-experimental study (n=33)** showing higher knowledge retention in game-based approach vs. traditional methods
- Authored a thesis detailing the development process, learning theory application, and statistical analysis of results.

Professional Experience

McDonald's, Copenhagen Aug 2021 – Aug 2022
Kitchen Operations & Training Specialist
